PROFILE

I am a self-taught data analyst with practical experience in organizations like Ricochet and Alluo. I possess strong analytical skills, utilizing data-driven insights to drive decision-making and optimize business processes. Alongside my expertise in data analysis, I am also proficient in content writing, combining my analytical mindset with effective communication. With a passion for problem-solving and a keen eye for detail, I strive to leverage my skills to deliver valuable insights and impactful content.

EXPERIENCE

2022 - present
Ricochet, Alluo.

DATA ANALYST

I have been actively involved in the crypto industry since 2022, collaborating with prominent projects such as Ricochet and Alluo. My role primarily focused on leveraging APIs to build robust databases, enabling efficient data retrieval and analysis. Alongside my crypto engagements, I have successfully undertaken several freelance projects, utilizing my expertise in database development and API integration. Through my versatile experience, I have gained a deep understanding of the crypto landscape and demonstrated my ability to deliver high-quality solutions that optimize data-driven decision-making.

2020 -2022

TON STATER, POLKA BRIDGE, oort digitals.

CONTENT CREATION

From 2020 until the third quarter of 2022, I had the opportunity to collaborate with prominent crypto projects such as PolkaBridge, Oort Digitals, Ton Stater and other start ups . During this period, I actively contributed to their growth by leveraging my expertise in data analysis. By extracting and analyzing relevant insights from crypto market trends, user behavior, and transaction patterns, I played a vital role in optimizing strategies, enhancing decision-making processes, and driving sustainable success for these projects.

2019

ANALOG

CONTENT CREATION (WRITING)

In 2019, I had the opportunity to work as a content writer with Analog, a leading company in the industry. During my time there, I honed my skills in crafting engaging and informative content. I collaborated with subject matter experts to develop articles, blog posts, and marketing materials, ensuring the delivery of high-quality content that resonated with the target audience. It was a rewarding experience that allowed me to combine my passion for writing with my interest in the analog field.
